Deep Blue was founded with the goal to build a specialty wholesale brokerage catering to agencies seeking specific expertise to complement their risk management focused, coverage first business models. Deep Blue agencies are looking for solutions for their clients, not just quotes or long and "impressive" marketing lists.

We focus on what we know and strive to be your go-to resource for what we do best. In short, we aim to be...

**"...THREE INCHES WIDE  
AND SEVEN MILES DEEP."**
